Anti static cloth

The Anti static cloth is a very useful disposable nonwoven product. This anti static product is used to resolve the industrial static electricity problems. The Antistatic wipes are made of high-quality woodpulp spunlace nonwoven fabric after special technical treatment. Anti-Static cloth help control static electricity as they clean electronic surfaces.

The anti static product has the features of soft, high absorbent for dust, gentle wiping and cleaning. Compares with common type wipes, it can absorb more dust with its surface. The antistatic wipes can be widely used for office cleaning, home cleaning, furniture cleaning and equipment cleaning. Static problem areas include: electro-static attraction (repulsion) of the product dust contamination, quality and safety.
