**Barber Gown**

People used to wrap up a big neckerchief or towels to avoid dirty their coat in the daily hairdressing. The big neckerchief is waterproof and texture is hard so it can not stick down the fractional hair. Dirt on the towel is difficult to clean. as many people share one neckerchief that cutaneous diseases will spread abroad one by one easily.

Pick a slice of saloon towel and wrap up on the neck. It is a one-off nonwoven product. It is impossible to spread abroad the disease. And it can stop the hair drop on the neck to bring the comfortlessness. hair dye will not adhere to your neck or collapsible. The neckband is clean and comfortable, conformable for customers. It is the optimal choice as it's low price. Material of the beauty care product is spunlace nonwoven. So it is very cheap and low cost. This nonwoven barber gown can prevent the germ which is make the as origin of infection
