Facial cleaning wipes

The facial cleaning wipes can clean out the melanin on the face. And the especial abluent component can clean out the sebum,dirt in the pores effectively.keratose intenerate abluent component help to clean the face quickly.The important thing is that you remove all of the soap so any caustic it contains won't burn your face. Blot dry with a soft towel; vigorous rubbing with coarse material aggravates and tugs at your skin.

While cleansing your face, our facial cleansing towel cleans off the remained dirt and lift up your face. The fabric gets stiff in the water, but no harm to your skin.The fabric is specially treated by the special technology so it gets rid of germs and ticks off your skin.Made with durable, environmentally friendly nonwoven material, this towel works like a super absorbent sponge cloth to soak up moisture fast. It is ideal to use with your favorite facial wash or use it to dry your face after. 100% lint free and super soft texture ensure that your face is thoroughly cleaned without any trace of make-up, dirt, oil or lint to clog up your pores.
