Germicidal Wipes

A non woven disposable germicidal wipes for control of the hazards of cross-contamination is required. Use on surfaces and equipment such as stainless steel, Formica, glass tables, carts, baskets, counter, cabinets, telephones and other hard non-porous surfaces. For use in hospitals and other critical care areas where control of the hazards of cross- contamination is of prime importance.

Highly effective in high-risk situations, the disposable germicidal wipes are cleans, disinfects and deodorizes hard non-porous surfaces. And these germicidal wipes kill hepatitis B and respiratory syncynal viruses when used as directed, in addition to other viruses and bacteria, including HIV, TB, MRSA, and VRE. it virtually eliminates airborne hazards associated with sprays.This can protect yourself and others from over one hundred microorganisms. Wipe on any non-porous hard surface gurneys, counters, carts, bed rails, wheelchairs and more to curb the spread of disease and reduce the risk of cross contamination.The germicidal wipes are disinfect, clean, and deodorize hard, nonporous surfaces,convenient and easy to use.
