### Microfiber towels

Microfiber (British spelling: Microfibre) is fiber with strands less than one denier. Microfiber is a blend of polyester and polyamide. Fabrics made with microfibers are exceptionally soft and hold their shape well. environmentally friendly microfiber cleaning cloths provide a safe way to clean household items such as mirrors, windows and household appliances.

Microfiber towel is an extremely effective cleaning material. This material can hold up to seven times its weight in water. They are also used for some cleaning applications, because of their exceptional ability to absorb oils. The microfiber towels are gentle to your furniture, mirrors, windows, porcelain, pots and cars, as the fibre is extremely fine and therefore it does not leave any scratches, mist or mark.
