Toilet wipes

The toilet wipes come in a heavy-duty, re-sealable foil bag. The cloth itself is similar to a baby wipe, so it is soft and pliable but still sturdy. The cleaning fluid that The toilet wipes are soaked in has a vague lemon scent. The toilet wipes can be used on the toilet, sinks and counters. Once used you simply flush the wipe away. The toilet wipes are safe for septic tanks.

To use the toilet wipes you peel pack the plastic cover on the front of the package. You pull out one wipe and then reseal the package so the other wipes do not dry out. Unfold the wipe and do your cleaning. Once the wipe becomes dirty or it starts to dry out you drop it in the toilet and flush it away. The toilet wipes should be stored in a cool place. You can use it to wipe up the rim of the toilet between cleanings.

TOILET WIPES

Applications:

- Home use
- Office use
- Hotel use
- Other use

Features:

- Nice attraction of hair, dust, and dirty particle
- Convenient & easy to change
