bamboo towels

The bamboo towels are made up of the bamboo cellulose drew by natural bamboo. Bamboo grows quickly and easily, without the need for pesticides or fertilizers. The gloss of fibre is bright and beautiful. Bamboo is biodegradable and the fiber has an unrivaled silky texture and readily absorbs moisture. Bamboo fiber also has natural antibacterial elements to help fight bacteria growth in your diapers. The manufacture system is absolutely taking physical processing method such as steaming and boiling etc. Bamboo towels do not contain any chemical additive.

The bamboo towels still have characteristic of touching soft, dressing comfortably, smooth, good drapability etc. Additionally, in the textile area, the wearability and strength of this surface fabric are all very good. It has unique antibacterial defence smelly performance, fine coloration, kick back, drapability, wearability etc, especially the ability of moisture absorption and ventilating put the head of other fibers.
