## clean room wipes

RIWAY clean room wipes are ideal products for wiping precision parts and components, and for using in semi-conductor industry and electric manufacturing factory. All clean room wipes are manufactured in state-of-the art class 10 clean rooms. The clean room wipes have the features of soft, absorbent, cleaning and polishing.

The clean room wipes are Ultra-clean wipe with extremely low particulate and excellent absorbency properties, Strong chemical and abrasion resistance, excellent tensile, tear and bursting strengths, Smooth texture is perfect for cleaning optics and lenses, engineered for the most critical cleanroom applications, providing no particle generation, no static build-up, excellent absorbency and strong chemical and abrasion resistance.

CLEAN ROOM WIPES

### Applications:

- Semi-conductor Industry
- Electronical factory
- Clean rooms
- Healthcare equipment
- Aerospace, optical appliances

### Specifications:

- Basis Wight: 50gsm~150gsm
- Size: 20x20cm, 30X60cm or be specified
- Colors: white or solid color
- Material: spunlace nonwoven

### Features:

- Heat sealed edges prevent fraying
- Bright white fabric assists
- High absorbency fabric
- Use for cleaning substrates, pins, cassettes

### Features:

- Compatible with all microarray *clean room* environments
- Vast improvement over traditional laboratory and clean room wipes
- Based on years of intensive microarray clean room R&D
- Durable and chemically-resistant composition
- No tearing with normal use
- Anti-static packaging eliminates electrostatic contamination
- Dual packaging allows easy surface de-contamination prior to use
- Can also be used in traditional, non-*clean room* laboratories
- Disposable
- One year shelf life at room temperature
